POSTAL REGULATORY
COMMISSION
U.S. DEPARTMENT OF COMMERCE

Dear Madams and Sirs

I am writing you to urge you to not approve the changes that Postmaster Louis DeJoy has proposed. This will be the largest cutback in US history. He is calling for the elimination of post offices, reducing staff, eliminating airplanes for first class mail using trucks instead (think about this in bad weather, maybe he would like to reinstate the pony express) and privatizing the post office. I believe the Constitution allows for a postal service.

I get my medications through the mail which I need without delay. I pay my bills through the mail, I cannot afford to have my credit destroyed because my bills and payments do not arrive in time. I vote and pay taxes using the USPS. While I am a senior citizen and not disabled there are many who are and this will be a disaster for them. I live in a rural community and we need the postal service.

For God's sake fund the Post Office if they need it or at least look at reasonable procedures that help instead of destroying sorting machines which speeds up the mail without human intervention. DeJoy destroyed many of these machines which my tax money paid for. That did not make me happy.

Sincerely

Carol Malispina
